

## DEMILUNE ROUND DINING TABLES

Introducing **Demilune**, a dining table that pays homage to the serene beauty of the crescent moon. The table's distinctive metal base, shaped in a graceful "U" curve, evokes the elegance of a half-moon, balancing boldness with lightness. Finished with a refined sheen, the base stands as a sculptural centerpiece that anchors the design with timeless sophistication.

Atop this celestial-inspired foundation rests a stunning marble top, meticulously crafted with a thin-profile edge. The natural veining of the marble dances like moonlight on the surface, adding texture and character to its minimalist form. The interplay between the robust metal and the delicate marble creates a harmonious balance, inviting both admiration and functionality.

**Demilune** is not just a dining table—it's an experience. Perfect for intimate dinners and grand gatherings alike, it transforms any dining area into a refined space of connection and style.
